SCHOOL DISCOURSE: LEARNING TO WRITE ACROSS THE YEARS OF SCHOOLING (PAPERBACK)

Continuum Publishing Corporation, United States, 2010. Paperback. Book Condition: New. Reprint. 234 x 156 mm. Language: English . Brand New Book. This book tracks the developmental changes in writing across the schools curriculum, enhancing a key area of research in applied linguistics. Writing development has been a key area of research in applied linguistics for some time, but most work has focused on children s writing at particular ages. Christie and Derewianka draw on extensive research in both primary and secondary years to trace the developmental trajectory from age 5 or 6 through to 18. Using a systemic functional grammar, they outline developmental changes in writing in three major areas of the school curriculum - English, history, and science - as children move from early childhood to late childhood and on to adolescence and adulthood. The book considers the nature of the curriculum at various stages, discussing the interplay of curriculum goals, pedagogy and developmental changes as children grow older. It also explores how emergent control of the different subjects requires control of various subject specific literacies and considers the pedagogical implications of their findings. School Discourse will be of interest to anyone involved in the writing performance of children in schools, particularly applied and educational linguists. Discourse is one of the most significant concepts of contemporary thinking in the humanities and social sciences as it concerns the ways language mediates and shapes our interactions with each other and with the social, political and cultural formations of our society. The Continuum Discourse Series aims to capture the fast-developing interest in discourse to provide students, new and experienced teachers and researchers in applied linguistics, ELT and English language with an essential bookshelf. Each book deals with a core topic in discourse studies to give an in-depth, structured and readable introduction to...
