

The Privacy Engineer's Manifesto: Getting from Policy to Code to QA to Value (Paperback)

By Michelle Dennedy, Jonathan Fox, Tom Finneran

aPress, United States, 2014. Paperback. Book Condition: New. 1st ed.. 229 x 152 mm. Language: English . Brand New Book. It's our thesis that privacy will be an integral part of the next wave in the technology revolution and that innovators who are emphasizing privacy as an integral part of the product life cycle are on the right track. --The authors of The Privacy Engineer's Manifesto: Getting from Policy to Code to QA to Value is the first book of its kind, offering industry-proven solutions that go beyond mere theory and adding lucid perspectives on the challenges and opportunities raised with the emerging personal information economy. The authors, a uniquely skilled team of longtime industry experts, detail how you can build privacy into products, processes, applications, and systems. The book offers insight on translating the guiding light of OECD Privacy Guidelines, the Fair Information Practice Principles (FIPPs), Generally Accepted Privacy Principles (GAPP) and Privacy by Design (PbD) into concrete concepts that organizations, software/hardware engineers, and system administrators/owners can understand and apply throughout the product or process life cycle--regardless of development methodology--from inception to retirement, including data deletion and destruction. In addition to providing...
