Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.Pursuant to a congressional request, GAO reviewed the Office of Child Support Enforcement's (OCSE) planned procurement of the Child Support Enforcement Network (CSENET), a nationwide telecommunications network to monitor uncollected child support payments, focusing on whether: (1) CSENET is the most cost-effective solution for increasing collections and improving the interstate child support enforcement program; and (2) OCSE has followed sound systems development principles in developing CSENET. GAO found that: (1) OCSE planned to award a contract for CSENET design, development, and implementation in October 1991, but cannot do so because it failed to adequately follow sound systems development principles; (2) OCSE has not demonstrated that CSENET is the most feasible and effective automated approach for increasing interstate collections and improving the child support enforcement program; (3) CSENET will have minimal impact on increasing interstate collections because it will not provide the additional information to help locate an absent parent; and (4) OCSE has not developed the accurate workload information to define automation capacity and performance requirements, adequately involved system users in CSENET planning, or defined technical requirements and provided the states with guidance on the interface with state systems and CSENET limitations.
